

Menu Choices

File Menu

“**New**” – lets you start a new activity

“**Open**” - lets you open a saved Kidspiration activity

“**Import a Graphic**” – allows you to use a graphic that you have saved in your teacher folder (or other location)

“**Save**” – allows you to save an activity

“**Export**” – allows you to send/save the Kidspiration file as a BITMAP (large clipart file format), GIF (the smallest clipart file format), JPEG (a small clipart file format), or HTML (web page format) file format

If someone does NOT have Kidspiration and you want to share a saved file – you will need to export it into one of the above formats to share.

Page Setup – allows you to select Portrait or Landscape setup before printing.

The **Edit menu** gives you Cut, Copy, Paste, Clear and Select All choices.

The **Goodies Menu** gives you Background color, Line color, and Spell Check options.

The **Sound Menu** gives you options to Record, Erase, and Voices (allows you to change the voice that “reads” to the user).
