LONDON EYE

# LONDON

## Let the Adventure Begin!!!

After surviving a 9 hour flight over the “pond” (the Atlantic Ocean), we begin our European adventure. Our first stop is the beautiful village of Windsor, home of Windsor Castle! Students get the opportunity to explore the village, take a tour of Windsor Castle and eat their first authentic Fish and Chips. Because our group travelled in multiple flights, Windsor is where we bring our group back together. After exploring the village, we drive to our hotel, check in, have dinner and get ready for the London Night Walk, where we will take a stroll through Kensington Garden to see Kensington Palace! This evening stroll will be our first exposure to London life. Following the walk, it’s bedtime. No jet lag here!

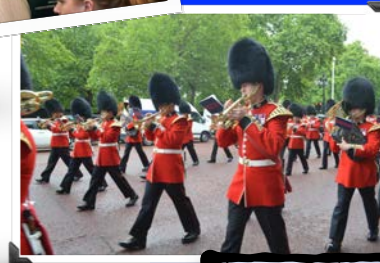

# Explore London's History

The London portion of our trip will include tons of sight-seeing and exploring London's rich history. So much packed into just a couple of days! Some of the sites we may see:

Wesley Chapel, one of London's most cherished historic treasures.

Westminster Abbey, with its iconic Evensong and ornate architecture.

Buckingham Palace, St. Paul's Cathedral, Trafalgar Square, Parliament, Big Ben and the Royal Albert Hall, and The Tower of London to name a few! The Tower of London is where the Crown Jewels are housed and gives a great view of the iconic Tower Bridge.

## Other Activities...

Outdoor performance in a local park, shopping at Piccadilly Circus, taking a Haunted Walking Tour of London, exploring the British Museum, watching the changing of the Royal Guard, a ride on the London Eye and maybe even catching a musical in London's famous West End!

Our goal is to pack in as much sightseeing as humanly possible during our stay. The pace of London is fast and furious, but chocked full of rich European history and Old World beauty!
